

SANTA ROSA LEAD PRODUCTS

RESIDENTIAL FLASHINGS 2# LEAD BASE, GALVANIZED CONE

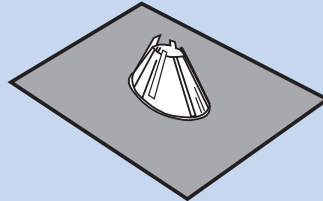

PLUMBER'S FLASHING / APPLICATION

Used on tile roof applications for its longevity, malleable base, and ability to conform to the contour of tile.

Santa Rosa Lead Products uses a narrow cone allowing the lead to sit on the roof sooner (doesn't create an umbrella effect as with large round cones). Available in 2 base sizes.

All SP items are boxed 10 ea. to prevent damage to flashings from warehouse to job site!

PLUMBER'S FLASHING

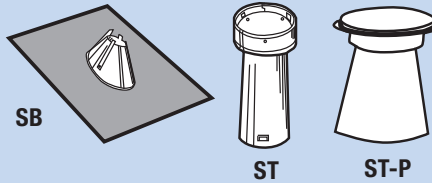

"Front doesn't blow up in high wind"

ITEM #	LEAD BASE	DESCRIPTION
SP10S	18 x 18	Standard Base 1"

CODE B ASSEMBLIES, FAN JACKS, T-TOPS, CHINA CAPS, DORMER VENTS, 2# LEAD BASE, GALVANIZED CONE

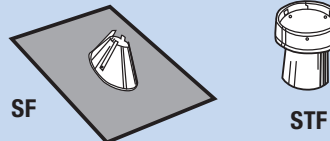

CONE B ASSEMBLIES / ITEM: SB B-VENT

Used for heated exhaust, ie: hot water heater and furnace: used with code cap (Item ST) in areas where local code requires. All SB bases are manufactured with four straps allowing most manufacturers' tops to fit.

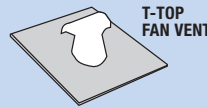

FAN JACKS / ITEM SF FAN JACK

Used for exhausting inside air ie: bathroom fan, kitchen stove, and heated exhaust when code allows.

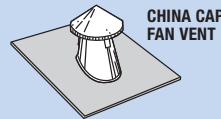

T-TOPS / ITEM: SVT T-TOP

Used for exhausting inside air ie: bathroom fan, kitchen stove, and heated exhaust when code allows.

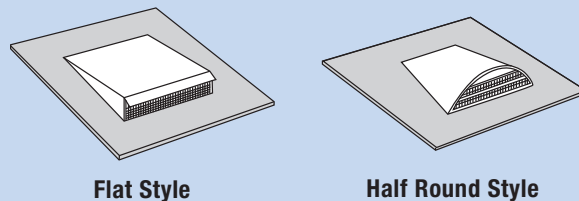

CHINA CAPS / ITEM: SVC CHINA CAP

Used for exhausting inside air ie: bathroom fan, kitchen stove, and heated exhaust when code allows.

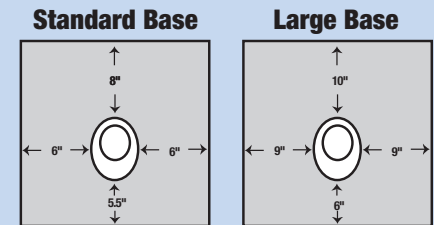

DORMER VENTS

Used for attic ventilation, readily available in flat and half-round styles. 50 sq. in. & 100 sq. in. standard. Available in galvanized, lead front with tile hook, lead front and sides, all lead base.
